B. D. VAN EVERA  
President

PRESIDENTIAL ARMS  
WEDNESDAY,  
FEBRUARY 19

HUGH DRYDEN  
General Chairman

Thank you for the nomination of a candidate for special recognition at the Engineers, Scientists and Architects Day luncheon to be held on February 19, 1964 at the Presidential Arms, Washington, D. C.

Final decision will soon be made by our Awards Committee as to the winners among the nominees. In the meantime, we feel that all nominees, whether or not among the winners, are deserving and should be given public recognition. We plan, therefore, to have them all attend the luncheon, sit together, be recognized by name and organization, and presented with an appropriate certificate.

A table has been reserved for the nominees. Unfortunately, we do not have the funds to make these tickets complimentary so we are hoping that your organization will be able, formally or informally, to pay the \$3.50 for the ticket, and if not, that your nominee will choose to do so. Please contact Mr. Wallace Davis, Tickets & Reservations, E. S. & A. Day, c/o General Telephone & Electronics International, Inc. 1120 Connecticut Avenue N. W., for tickets as soon as possible; (Telephone FE 7-6600).

We trust that you or others in your organization will also want to attend all or part of the affair.

Sincerely yours,

*WE Lear*

W. E. Lear, Chairman  
Professional Awards Committee

Dr. W. E. Lear, Chairman  
Professional Awards Committee  
Acting Head, Engineering Section  
National Science Foundation  
Washington, D. C. 20550

Dear Dr. Lear:

Thank you for the invitation to nominate a representative of the Central Intelligence Agency for special recognition during Engineers' Week. We were very pleased to have [REDACTED] selected in 1960 as one of the recipients of the National Capital Award.

[REDACTED] is our candidate for the 1964 Award. He is an outstanding young professional electronics engineer who is serving in our research and development program in a position which requires highly specialized technical knowledge. Prior to joining CIA [REDACTED] had a notable career in the United States Air Force as Electronics Warfare Officer. We feel that his excellent record with the USAF and the professional competence which he has demonstrated in this Agency make him a fitting representative of the young engineers in Government.

Mr. McCone and our senior officials appreciate being given the opportunity each year to participate in this program which stimulates interest in professional careers, and thank you and your associates in the Washington scientific societies for continuing the National Capital Awards program.
